Lender Risks

Mitigant

Risk Level

Risk that the management of the Borrower is not able to execute their business plan.

The management of the borrower has direct property management experience over the Chandler's Ford property for over 8 years, and is respectable and trustworthy.

Low

The management of the borrower have generated profits in the short time since commencing trading, and have over 30 years relevant sector experience.

In the unlikely event that planning is not granted, the borrower will keep the property for longer term investment.

Risk that the Borrower stops making monthly interest payments to Lenders due to loss of lease income and or tenants whose leases had ended, had exercised a lease break or have gone into receivership.

In the event that the car business fails, the borrower expects to be able to immediately let the unit out to another tenant, and advises that he has been approached by one potential tenant already.

Low

The Print Room can vacate giving one month's notice, under the terms of the Licence to Occupy.

Marc is of sufficient personal wealth and integrity to ensure that our interest will

continue to be serviced.

Proplend holds 6 months interest in reserve.

Current income is 1.28x the interest due, allowing for up to 22% fall in income.

If income cover falls below 1.25x the loan is in technical default.

Risk that the Borrower is unable to repay the loan principal at the end of the loan term because they have not been able to sell or re-finance the property.

Holding a first legal charge secured over the property which is registered with the Land Registry and Companies House, enables Proplend Security Limited to appoint solicitors and/or a receiver to repossess the property and sell it and execute any other security held from the borrower.

Low

Default interest is charged during the period of default.

Risk that the Property falls in value due to either macroeconomic or property specific reasons

The property is well located in a stable UK city.

Medium

Proplend limits the maximum loan to value against a property to 75%. This means the borrower has to have a minimum of 25% equity in the property to borrow on Proplend.

So a property would have to fall in value by more than 25% for lenders in Tranche C to be affected, fall 35% for lenders in Tranche B to be affected or fall by more than 50% for lenders in Tranche A to be affected.

Proplend Security Limited maintains a panel of experienced valuers who must have adequate professional indemnity insurance to provide property valuations.
