Lender Risks	Mitigant	Risk Level
<p>Risk that the management of the Borrower is not able to execute their business plan.</p>	<p>Given the security on this part of the portfolio, at 62% LTV gross, the Borrower should be able to refinance to a high street lender or challenger bank, within the term of this loan.</p>	<p>Medium</p>
<p>Risk that the Borrower stops making monthly interest payments to Lenders due to loss of lease income and or tenants whose leases had ended, had exercised a lease break or have gone into receivership.</p>	<p>The Borrower has other assets with a diverse overall spread of asset class and type of tenant.</p> <p>Any void or financial difficulty with any tenant here can be covered by other income enjoyed by the Borrower, who has a portfolio ICR in excess of 1.76x</p> <p>The rent will rise by a further £2k p.a. at 7 Sovereign Court in September 2019, and then a further £3k in September 2020 in accordance with the current lease terms.</p> <p>The rent will rise by a further £3,710 p.a. at 10 Sovereign Court in September 2020 as per the current lease.</p>	<p>Medium</p>
<p>Risk that the Borrower is unable to repay the loan principal at the end of the loan term because they have not been able to sell or re-finance the property.</p>	<p>As above, at 62% gross LTV, and with the rents above that are due to increase further during the course of this loan, the ICR will improve further from the current 1.95x to 2.02.x, which should further enhance the prospect of a straightforward refinance.</p>	<p>Medium</p>
<p>Risk that the Property falls in value due to either macroeconomic or property specific reasons</p>	<p>The Property would have to fall in value by a greater margin than that which prices fell in the 2008/9 financial crisis, before lenders would be affected.</p> <p>The loan to Vacant Possession Value is 66.79%.</p>	<p>Medium</p>
